Notes:

- The above average inpatient spending per bed-day is determined based on the Company's bills for services provided to patients, which are incurred in various different hospitals with medical insurance settlements and the Company's in-house diagnosis for some medical expenses. It does not include.
- The considered increase in outpatient visits and significant increase in pharmaceuticals over the period is due to: i) a reduction of lower-priced online general hospital services through the Company's internet hospitals; and ii) an increase in use of medical services mixed our care in our hospitals.

The above operating and indicators are based on the Company's records and the management has audited or reviewed by the Company's auditors. The operating and indicators may differ from hospital disclosures in the periodical reports. The operating and indicators disclosed in the periodical reports shall prevail if there is a discrepancy.

Shareholders and potential investors of the Company are reminded to rationally deal with any information not officially released by the Company, and shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
